

Krypto500 Krypto1000

VS

Competition

Relevant to SIGINT with maximum intelligence extraction	 POWERFUL	Sometimes incomplete and incorrect
Compatible with numerous hardware and inputs	 PROVEN	Proprietary, not community standards
Continuous enhancement; ~10 new decoders added yearly	 RESULTS	Less than 3 new decoders per year
Advanced analytics, cryptanalysis tools are standard features	 UNIQUE	Legacy tools; coarse classification
Custom decoders, fingerprinting, nodal analysis	 DISCOVER	No fingerprinting nor nodal analysis, lacking advanced tools
Built-in artificial intelligence	 STATE OF THE ART	Does not keep pace with targets nor technology
Always current and complete decoders	 RELEVANT	Obsolete, off-air modes, irrelevant decoders
Free software updates*, free technical support	 SUPPORT	Paid support
Extensive hardware, OS and VM compatibility	 ADAPTABLE	Very limited hardware compatibility
